Overview & Update of Genealogical Resources at the Dayton Metro Library

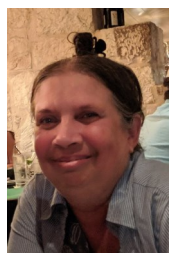

By Lori Rotterman

SATURDAY, APRIL 13, 2024 - 1:30 P.M.

**Dayton Metro Library, Community Room 2-B
215 E. Third Street, Dayton, OH 45402**

The Dayton Metro Library provides a wealth of genealogical and historical information. As with all libraries and archives, the Dayton Metro Library's genealogy collection is constantly updated.

In this presentation, speaker Lori Rotterman, will talk about physical materials and equipment that can be found at the library such as books, microfilm, scanners, maps, and local history items, as well as databases available on the library's website www.daytonmetrolibrary.org. Lori will also direct a short tour of the Genealogy area. It is well worth any researcher's time to revisit repositories and materials to find new information.

Lori Rotterman, Information Services Assistant, Special Collections, has worked with the Dayton Metro Library's genealogy collections for many years and is an invaluable resource for those materials. Lori, past President of the Montgomery County Chapter of the Ohio Genealogical Society is currently serving as the Chapter's Corresponding Secretary as well as Chair of the Chapter's Seminar and Education committees. Additionally, Lori has the experience of working for the R. L. Polk / Williams Directory Company for several years as an enumerator.
